# Picking the right tool

One approach...

It can feel that way

# Assess your needs

- What level of tool do you need?
- Integration?
- Flexibility
- What doesn't it need to do?
- Budget...

# Two Programs

- Utah HPwES
- Efficiency Kansas

# Our tools

# However...

When all you have is a hammer, every problem looks like a nail

- Enterprise Management System
- Turn-key
- Soup to nuts
- For example...

- Out of the box – off the shelf
- Semi – custom
- Custom

- Energy modeling – utility analysis
- Ease of use
- Customized
  - Interface
  - Reporting
- API

# Utah

- HPwES
- iRate – out of the box (almost)
- OptiMiser

# Kansas

- Efficiency Kansas
- iRate
- Very custom
- Top down system –with a lot of arms and legs

Thank you...
