

# iAudit Pro

## The Killer App for Residential Audits

Create beautiful reports on the spot with detailed recommendations that include

- ✓ savings to investment ratio
- ✓ installed costs
- ✓ rebates & incentives
- ✓ annual savings
- ✓ comfort
- ✓ health and safety
- ✓ observations & notes
- ✓ photos & captions

Perform lighting fast, accurate home energy assessments and generate beautiful customer reports on the spot.

## Spend less time earning more money.

**Recommendations so accurate, your client will love you for it.**

Accurately predict energy savings, savings to investment ratio (SIR), annualized return (MIRR), and cash flow while harnessing powerful databases for installed costs, rebates and more. With OptiMiser technology under the hood, iAudit Pro puts state-of-the-art energy modeling at your finger tips.

**It's so simple, anyone can use it.**

### Home Improvement Contractors

HVAC contractors who are on a routine or emergency visit can create a great audit in no time.

### Home Performance Contractors & Auditors

iAudit Pro uses one of the most advanced modeling engines, while dramatically streamlining the report creation process.

### General Contractors

Remodeling a house? Leverage the monthly savings from energy efficiency upgrades to help homeowners recoup the cost of a remodel.

**Goodbye Clipboard. Hello Audit.**

Never fill out a paper form again. Enter data as you walk through the house. Drastically reduce your back office burden and be ready to close the sale at the kitchen table.
